11/13/2006	Mon 5:34a	Mon	2:51p	30min	DIETARY	8.75		

Summary [Explain...](#)

Hours for the week of 11/11/2006: 8.75

Hours for the pay period beginning 11/09/2006: 29.50

This is the "Employee Punches" page. You do most of your administrative work here. See the autolunch toggle at the top. You can also toggle to the next Exception, previous pay period, add punches, add hours, and fix punch times. The software adds an E when punches are modified, a W when something may be wrong. See the 12.25 hours. The Exception is set at >10 hours here, so it alerts you. A punch is missing, it alerts you. This does more, this gives you an idea. Punch records are saved forever and can be easily restored.
