

# FINALLY!!!

## A SIMPLE SOLUTION TO YOUR OUT-OF-SYNC CLOCK PROBLEMS

LOOK FAMILIAR? Your time is money.

Let TimeTrax Sync add to your bottom line!

## WIRELESS SYNCHRONIZED "CLOCKS IN A BOX" TIME SOLUTION BUNDLES

- 30-Day money back guarantee
- No FCC site license needed
- 5-Year limited warranty
- 50,000 sq. ft. guaranteed coverage (more upon request)
- Automatically adjusts for Daylight Savings Time
- Automatically resets after power outages
- Easy installation, no experience needed
- No additional costs
- Syncs your networked computers to the same time
- Ability to sync master time with Pyramid's Ethernet Time & Attendance Terminals
- Made in the USA

Pyramid's TimeTrax Sync Wireless "Clocks in a Box" bundle is all you need to get your facility clocks working on the same time. This pre-engineered solution will get your facility up and rolling quickly at an affordable price. For convenience, everything you need is all in one box. The dependable 902-928 frequency-hopping technology transmits a signal to the wireless system clocks. "Clocks in a Box" is the ideal starter solution for synchronized timing needs for all building types under 50,000 sq. ft. (larger building accommodations available upon request). The system time source is NTP with optional GPS. Bell scheduling is also available making the "Clocks in a Box" the perfect starter solution for all your synchronized timing needs.

### 1-WATT WIRELESS RF MINI-TRANSMITTER

- 128 channel 902-928MHz frequency-hopping technology
- Send RF time signal to an unlimited number of clocks
- Battery backup for maintenance-free use should power fail
- Time source captured from NTP or optional GPS
- Optional scheduling software for synchronized system bells

### BUNDLE 1
