- **YOUR EMPLOYEES CAN ALSO:**
Capture hours worked
Allocate time to a department (with upgrade)
View last punch and hours worked

Web Punch Time Clock™

A convenient add-on to the Universal Time Clock 2.0

Capture employee punches anytime, anywhere with the Web Punch Time Clock for your Universal Time Clock

EXTEND THE BENEFITS OF THE UNIVERSAL TIME CLOCK TO YOUR OFFSITE AND MOBILE EMPLOYEES

Using the Universal Employee Time Clock from Icon Time Systems, you achieve many benefits from automating your time and attendance processes. Until now, those benefits were only available to your employees who worked onsite with a time clock terminal. The Web Punch Time Clock upgrade allows you to capture employee punches anytime, anywhere using a Web browser, allowing your employees to clock IN from their workstation, onsite, offsite or while traveling.

While businesses can benefit from the Web Punch Time Clock's advanced functionality such as IP location restrictions and GPS tracking with Google maps integration to help eliminate employee time clock fraud; employees can also stay informed as the Web Punch Time Clock allows employees to view their information such as last punch time, total hours worked for the day or week etc.

Web Punch Time Clock™

A convenient add-on to the Universal Time Clock

THE Icon Time Systems DIFFERENCE.

The price and innovative technology of Icon Time Systems' Web Punch Time Clock makes it a one-of-a-kind solution for small businesses in the market today!

Unlike the market-standard of recurring monthly fees (that quickly add up) associated with Web browser based time clocks, the Web Punch Time Clock is available for a one-time nominal flat fee! In addition, the Web Punch Time Clock licenses are yours to own and can be reassigned to other employees when and if turnover occurs.

In terms of innovation and technology, the Web Punch Time Clock includes advanced functionalities such as IP address restrictions and even GPS tracking* that would allow a business to eliminate time clock fraud and enable you to run your business more efficiently.

FREQUENTLY ASKED QUESTIONS

Q Are there any monthly fees?

A No. There are no recurring monthly fees involved. The Web Punch Time Clock can be bought in sets of 5 employee licenses for a one-time flat fee. All employee data and license is yours to own and you can even reuse the licenses if and when you have a turnover.

Q I'm interested in the Web Punch Time Clock-how complicated is the set up?

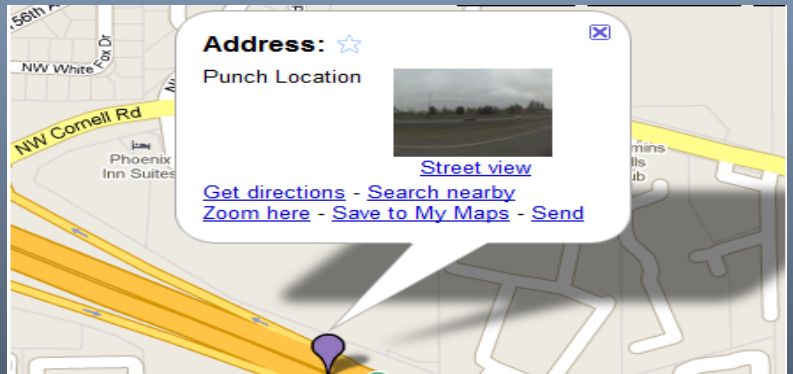

A The Web Punch Time Clock can be set up in just minutes! There's no software to install—simply select the employee that you wish to assign to the Web Punch Time Clock option and choose a password for the employee. The employee is then ready to begin clocking from their Web browser, using the company Network or their Internet (with proper configuration).

Q How do I purchase this upgrade?

A Icon Time Systems products are available through a nationwide dealer network. For a list of resellers in your area give us a call.
